

# Sato's Yunker Q10 jelly - a spectacular, drinkable, CoQ10 dietary supplement to fight the effects of aging!\*

Introducing Yunker Q10, an anti-aging\*  
nutritional supplement that's drinkable.

An original concept, Yunker Q10  
features coenzyme Q10, (known as  
CoQ10), a compound that is made  
naturally in the human body to produce  
energy cells. It also acts as an anti-  
oxidant and offers support for the  
cardiovascular and immune systems.\*

As we age, the body produces less and  
less CoQ10 which can result in the feel  
and appearance of aging. In order to obtain  
an optimal level of CoQ10 in the body,  
especially after thirty years of age, supplementa-  
tion is highly recommended.\* Sato Yunker Q10  
provides cellular support which in turn leads  
to both a more youthful feeling and appearance.  
It is a necessary part of any healthy diet plan.\*
